

CSCPRC

**The Committee on Scholarly Communication with
The People's Republic of China**

Gelman Library
(SEEARR)

Index to Boxes
held in WRLC Storage

About the Collection and this Index:

The Committee on Scholarly Communication with the People's Republic of China (CSCPRC), later the Committee on Scholarly Communication with China (CSCC), was founded in 1966, jointly sponsored by the US National Academy of Sciences, the American Council of Learned Societies (ACLS), and the Social Science Research Council (SSRC).

The mission of the CSCPRC was to promote scholarly communication between China and the United States at all levels: arranging for exchange visits by scholars from both countries, facilitating the meeting of US and PRC scholars at conferences, organizing the exchange of publications and other scholarly materials and correspondence, etc. The CSCPRC was formed at a time when such communication was not routine and continued to develop as US-China relations normalized.

In 1996, however, budget restrictions forced the closure of the Washington, DC office of the Committee. Administration of the Committee was transferred to ACLS in New York, and an office in Beijing is currently being maintained. When the Washington office closed, the Slavic, East European and Asian Reading Room (SEEARR) of the Gelman Library of The George Washington University received the CSCPRC's Washington-branch library as a donation, along with its corresponding non-administrative information files. These information files comprise 96 boxes of material organized by subject-matter and further organized chronologically into colored file folders.

This Index catalogs the materials stored in each individually bar-coded box. The boxes are located in the WRLC storage facility and may be recalled by patrons to the Gelman Library by inquiring at the Reading Room Service Desk (Room 708).
